Sound Person: Michelle Makram

CARAVAN CREATIVITY WORKSHOP was held under the theme THE SELF & THE CITY to give a chance to youth interested in filmmaking deprived of the direct contact with the rest of the world, to exercise the art of documentary filmmaking. The workshop was also meant to help young talents to explore, through their films, themselves and the new place (the City), as well as to communicate with European experts. The time of the Workshop was a challenge for the participants who have to give simple and alternative solutions.
